HORTISCAPE GROWING MEDIA FOR GREATER SUSTAINABILITY

An innovative solution for the professional horticulture market

The new generation of rock mineral wool growing media is made from volcanic rock with a bio-based formula binder manufactured without added formaldehyde or added artificial dyes. The binder used in our Mineral Wool with ECOSE® Technology is mainly derived from rapidly renewable materials.

Experience it yourself!

Outstanding quality

ALL BENEFITS AT A GLANCE

Rock Mineral Wool with ECOSE Technology manufactured at our European, Russian and CIS manufacturing plants are manufactured in sites certified with four key international management standards namely ISO 9001 (Quality Management), ISO 14001 (Environmental Management), ISO 50001 (Energy Management) and OHSAS 18001 (Health and Safety Management) for all our Europe, Russia and CIS Plants.
